

In the Claims:

Please cancel Claims 1-13, and add Claims 14-20.

Claims 1-13 (Cancelled)

14. (New) Composition on basis of *Pothomorphe umbellata* extract comprising a standardized extract of *Pothomorphe unmbellata* which contains a range from 0.005 to 20.2% of 4-nerolidylcatechol in the composition.
15. (New) Composition according to claim 14 comprising a composition which is presented for topical use.
16. (New) Composition according to Claim 14 comprising a composition which is presented in gel form.
17. (New) Composition according to Claim 15 comprising a composition which is presented in gel form.
18. (New) Composition according to Claim 16 comprising:
 - a) carboxymethylcellulose 0.01 – 10.0%
 - b) propyleneglycol 0.001 – 50.0%
 - c) methylparaben 0.001 – 3.0%
 - d) *Pothomorphe umbellata* standardized extract, so that the formulation comprises from 4-nerolidylcatechol 0.005 to 20.0%
 - e) distilled water q.s.p. 100.0%

19. (New) Composition according to Claim 17 comprising:
 - a) carboxymethylcellulose 0.01 – 10.0%
 - b) propyleneglycol 0.001 – 50.0%
 - c) methylparaben 0.001 – 3.0%
 - d) *Pothomorphe umbellata* standardized extract, so that the formulation comprises from 4-nerolidylcatechol 0.005 to 20.0%
 - e) distilled water q.s.p. 100.0%
20. (New) Method of application of the composition on basis of *Pothomorphe umbellata* extract for treatment and/or prevention of photodamage to skin, cutaneous aging and/or skin cancer wherein said composition is topically administered in way to allow a satisfactory therapeutic response.
21. (New) Method according to Claim 20 comprising an antioxidant activity.
22. (New) Method according to Claim 20 comprising an inhibitory activity of the lipid peroxidation.
23. (New) Method according to Claim 21 comprising an inhibitory activity of the lipid peroxidation.
